EDUCATION

University

Instituto Tecnológico Superior de
Guanajuato

Computer Systems Engineering — 2022 to
present (9th semester)

High school

Centro de estudios científicos y
tecnológicos de Guanajuato

Mechatronics-2019 to 2022

SKILLS

- Teamwork
- Leadership
- Problem solving
- Adaptability to new technologies
- Server administration
- Development tools (Git & GitHub)

LANGUAGES

- English: C1(EF SET certificated)
- Spanish: Native

ABOUT ME

Computer Systems Engineering student with solid knowledge in web and software development. I work with technologies such as **JavaScript**, **PHP**, and **Node.js** for frontend and backend development, as well as **Python** with **Django/Flask** and Java with Spring for building robust applications. I am characterized by my quick learning ability, attention to detail, and motivation to contribute to real projects that generate impact.

EXPERIENCE

Linux Server Configuration and Administration

Academic project

- Configuration of services such as DHCP, FTP, Web, DNS, and VPN.
- Multimedia service with the open-source project Jellyfin.
- Cloud service implementation using the open-source project Nextcloud.

Web Development

Academic project

- Web projects using HTML, CSS, JavaScript, PHP, and databases (MySQL, MongoDB).
- Frameworks: FastAPI, Node.js, Express.js.

CERTIFICATIONS

- NDG Linux Unhatched by Cisco Academy
- Linux Essentials by Cisco Academy
- Conceptos básicos de redes by Cisco Academy

Portfolio
